The Lexmark T632 laser printer for workgroups is versatile and handles complex output.

The Lexmark T632 laser printer is versatile and handles complex output for workgroups. A standard 350 MHz processor, 64MB memory and 600-sheet input make this a powerful workgroup printer. With its wireless print and PrintCryption capabilities, the Lexmark T632 is easily adapted to a workgroup's needs. Additionally, available optional special applications and finishing features can provide for increased versatility for business applications and processes. Excellent results are achieved on a wide range of media over a wide range of sizes. Its fast print speed of 45 ppm on letter-size paper, less than 10-second time to first page, and 200,000-page duty cycle make this an excellent workgroup solution.

Features:

- * 40 ppm rated print speed on letter-size paper
- * Less than 10 seconds to first page
- * 350 MHz processor
- * 64MB standard memory
- * 1200 image quality resolution
- * 600-sheet input standard
- * 200K duty cycle
